WOOD BEATEN

Committee

BULLETIN.

By Associated Press Leased Wire

Chicago, June 2.—In its first decision affecting the Johnson forces in the convention, the Republican national committee by 36 to 12, voted to seat delegates from the tenth Minnesota district who are counted as favorable to the candidacy of the California senator.

The Wood delegates were denied seats on the first roll the committee has taken since it began deciding contests after a spirited discussion which brought out the charge, which the committee accepted, that the Wood delegates had been chosen by a rump convention.

The attorneys for the Wood delegates told the committee they had left the convention because they were denied police protection. The attorneys for the Johnson delegates characterized that statement as "laughable and a falsehood."

Mississippi Contest

The Mississippi contest, which followed Minnesota's involved 12 delegates pledged to Wood against 12 un-instructed chosen at separate conventions March 31, and May 5, respectively. The Wood factions were led by Perry Howard a Jackson negro, and W. O. Ligon, of Gloster, while M. J. Mulvihill, of Vicksburg, national committeeman headed the unpledged group.

The fight pivoted on the question of party regularity, each side charging the other with holding an unauthorized convention and with each side claiming to be the "regular" Republicans.

In connection with the contest it was developed in the senate investigation that \$4,000 Wood funds had been sent to Mississippi but Frank H. Hitchcock, Wood manager, testified that he had nothing to do with it and regarded the Wood delegation "illegal."

Chicago, June 2.—Resuming work on convention contests, the Republican national committee today seated the 12 un-instructed delegates from Louisiana headed by Emile Kuntz, of New Orleans, national committeeman and dismissed the contest of the "illy white" group, led by C. S. Hebert and Victor Lelouel, of New Orleans.

C. S. Hebert, of New Orleans, who figured in the committee's decision yesterday denying a rehearing in the challenge of Mr. Kuntz's seat, appeared for the contestants. He was confronted with a signed agreement made in 1918 in which he and his associates agreed not to file a contest. Committee members said the case had been investigated thoroughly last year and declared the new contest violated the 1918 agreement.

Given More Time.

Further time to check evidence in the Georgia case was given to the subcommittee headed by Charles B. Warren, of Michigan, who said a comparison of duplicate state convention rolls would take much more time. H. L. Remmel, of Arkansas, proposed that both Georgia delegates be seated with a half vote each, but was voted down. In taking up the tenth Minnesota district contest, between two Wood and two unpledged delegates, Secretary Miller announced that both claimed to be the regular delegates. Representative Schall, the blind congressman, was one of the unpledged delegates.

Chicago, June 2.—Claims of contesting delegations from Florida and Georgia continued today to occupy the attention of the Republican national committee. Every effort was being made to speed up consideration of the cases, so the committee might pass on the claims from 10 other states which have not yet been heard. The prospect of night sessions to clean up the state before the convention meets next Tuesday seems to be growing.

The first order of business today was supplemental hearing for the regularly reported delegation from Florida, headed by National Committeeman Eben and the contesting delegation headed by H. L. Anderson, of Jacksonville.

Interest in Georgia Contest. With that disposed the committee planned to pass on to the Georgia case involving the seating of delegates pledged to Major General Wood or those counted in support of Governor Lowden. The claim of the latter delegation, headed by H. Lincoln Johnson, an Atlanta negro, that it is the regularly reported delegation is disputed by the former delegation, known as the Pickett faction, which contends that it should be considered the regularly accredited delegation as Roscoe Pickett is the accredited state chairman. Nevertheless, the committee list gives the Johnson delegation as the

Pittsburgh, Pa., June 2.—At least six men were killed by an explosion in the coal shaft of Ontario Gas Coal Co. near Cokesburg, Pa., today. The men were buried under tons of earth and the foreman in charge of the work said he would not be able to tell the exact number of dead until the bodies had been recovered.

The men were employed by the recently formed Ontario Gas Coal company in sinking a shaft for coal and reached the top of the coal late yesterday. Soon after they went down the shaft today to resume work there was an explosion which dislodged great masses of earth and buried every man in the shaft.

Preparing for Big
Time at May-East
Grove Celebration

Supervisor James Buckley, of May township, is in the city today making arrangements for a huge affair to be held near Maytown on Monday, July 5th. He is general chairman of an old fashioned picnic and outing to be given for the benefit of soldiers of the late war residing in May and East Grove township at Angier's Grove. Soldiers from all parts of the county will be welcome and will be entertained royally.

State's Attorney Harry Edwards will be the orator of the day and addresses will also be delivered by other well known speakers. The program will open in the forenoon and continue through the day and night. Another committee is making extensive arrangements for an athletic program to consist of races, contests and baseball games. The committee in charge plan to make this celebration the largest ever held in that section of the county and are exerting every effort to have a big crowd present on that date.

Railroad Men Ask
Board to Get Busy

By Associated Press Leased Wire

Chicago, June 2.—Railroad employees before the United States Railroad Labor Board asks today that its public hearings be discontinued and that prompt action be taken on their wage demands. Unless immediate action were taken, they said, there is danger of a breakdown of the whole rail transportation system. Judge R. M. Barton, presiding, replied that the board had listened patiently to the rail road employees and would endeavor to arrive at an intelligent decision as soon as possible.

Tracks Washed Out
West of Geneseo

By Associated Press Leased Wire

Rock Island, Ill., June 2.—All through Rock Island lines trains over the main line are being routed over the C. M. & St. P. tracks between Chicago and Rock Island today because of bad washouts about ten miles west of Geneseo, Ill. A heavy precipitation of rain during a cloudburst this morning early, softened the roadbed, and three 100 foot stretches of track were washed out. No accidents occurred. Local trains are arriving from Chicago by way of Bureau and Peoria.

G. O. P. NOMINATIONS
THURSDAY, PROGRAM
CONVENTION HEADSWill Leave Friday and Sat-
urday for Balloting
on Candidates

By Associated Press Leased Wire

Chicago, June 2.—Nominating speeches in the Republican national convention next week probably will come on Thursday, with balloting on Friday, L. W. Henley, secretary of the arrangements committee announced today. Following the keynote speech of Senator Lodge of Massachusetts, temporary chairman and appointments of committees on Tuesday, Mr. Henley said the convention probably would adjourn until Wednesday for committee work.

Permanent organization, rules and order of business are on Wednesday's tentative program. After the nominating speeches Thursday, Mr. Henley said, the tentative program would leave Friday and Saturday and possibly part of Thursday for balloting and consideration of platform.

On Monday, preceding the opening of the convention, caucuses of many state delegations are scheduled to select national committeemen and make committee nominations.

There are more than 150,000 applications for tickets for 13,283 seats, Mr. Henley stated, and 1,100 applications for 576 press seats. Increased interest of women in politics was assigned by Mr. Henley as a reason for the ticket demands. Distribution of tickets is to begin next Saturday through national committeemen.

Saginaw Team Wants
Pitcher Geo. Lightner

George "Buck" Lightner of this city, who has played baseball for several years has received telegrams from Manager Jack Beatty of the Saginaw club in the Michigan Ohio league, requesting him to report at once and offering him a steady position on the team for the remainder of the season at a very good salary. Lightner is undecided as to whether he will go to Flint, where the team is now playing, and report, or to remain in Dixon this summer.

A few weeks ago, he received an offer from the owner of an independent team at Davenport, asking him to come to that place for the summer, but chose to remain in Dixon. He is now playing regularly on the Brown Shoe company team.

Tri-City Carpenters
Returned to Work

By Associated Press Leased Wire

Davenport, Ia., June 2.—Seven hundred union carpenters returned to work this morning in the four cities of Davenport, Ia., Rock Island, Moline and East Moline, Ill., after being ordered to do so by their officials. The officials declared that the walk-out of the men was a violation of their agreement with the contractors. While the wage controversy is being settled by arbitration, the men will work.

Waited in Vain for

Wilson Appeals for
Suffrage Ratification

By Associated Press Leased Wire

Washington, June 2.—President Wilson has telegraphed three members of the Delaware legislature urging that every Democrat in the legislature vote for the suffrage amendment.

"May I not as a Democrat," the President said, "express my deep interest in the suffrage amendment and my judgment that it would be of the greatest service to the party if every Democrat in the Delaware legislature voted for it?"

The message went to Assemblymen who are said here to have opposed ratification of the amendment.

Cotton Conditions
Worst Ever Known

By Associated Press Leased Wire

Washington, June 2.—Reporting that the condition of the cotton crop on May 25 at 62.4 per cent of normal, the department of agriculture announced that this was the lowest mark in its record of 50 years and that the recurring statement "worst ever known" was confirmed. No forecast of production was made.

Revised figures of the area planted last year were announced as 35,133,000 acres, the area picked 33,566,000 acres and the yield per acre 141.5 pounds. The May condition last year was 75.6 per cent of a normal and the 10 year average 78.7.

Mrs. Blake Grover returned home last evening after visiting with relatives in Chicago for several days.

been for years because altruism rather than office-holding is making women take part in politics now. But the hat, and it was fair to infer she meant, symbolically, her own, a chic affair of scalloped silk, "is in, and literally for good. The women are entering politics to serve and service is the feminine passport for happiness."

"We are altruistic, I think, in our political endeavors. Certainly," and she permitted herself an engaging smile. "In my lobbying. What else have we to promise the woman voter or the man, but the general good of selecting a certain candidate? We can only preach the virtue of the political act without mentioning its reward."

"Not that we haven't our eyes set on something more definite, we have. We all have been in the bonnets and mine buzzes audibly. It says it wants full representation of women in politics. It wants to see them on the national, state and county committee where an elective voice can be raised in the arguing out of party policies."

Merely reaching up to get the vote is obviously not Mrs. Dobyns' idea of the full suffrage gesture. She wants more. "Without organization the

individual vote lacks power," she says. "Women learned first the value of organizing, which means choosing, in federated clubs. More completely they learned it in war works. Now they find the fuller efficiency in service which was sought in both the other occupations in politics."

Before the war, she sang. During the war she worked. After the war, she entered politics and is now Illinois alternate delegate-at-large to the convention. "In singing I served myself. It is impossible to sing well and not sing selfishly. War work," (she was director of the downtown Red Cross shops in Chicago), "served others. Politics does the same. It is not original," she admitted, "to state one finds the broadest happiness in general service but it is still true."

She has chic, has Mrs. Dobyns, combined with the cultivated brains and manner of the woman in whom the demand for intelligence in the governing classes is instinctive. To this she liberally adds physical magnetism and a kind of beauty which the beholder associates with an ardent sense of high color. As Gov. Lowden's right hand woman she attains distinction and as herself moves as one of the decorative women figures at the convention.

COUNCIL WILL
FIGHT HIGHER
WATER CHARGE

The action of the Dixon Water company in filing with the state public utilities commission, a request for increased rates, was the subject of considerable discussion at last evening's regular council meeting. The entire council favored fighting the increased rate as asked by the company and Mayor Mark D. Smith instructed the city's legal department to prepare an answer to the rate demand.

The regular monthly list of bills were read and allowed. An ordinance vacating a wedge shaped strip of land on College avenue and Fourth street for E. C. Parsons, was presented and passed. An application from Frank Nagle, proprietor of the Manhattan cafe, for permission to erect an electric sign, was referred to the commissioner of public health and safety with power to act.

ATTY. WINGERT
ENTERS LIST OF
OFFICE SEEKERSIs Candidate for Position of
State's Attorney

The list of aspirants to the office of State's Attorney for Lee county is added to by the announcement of the candidacy of Attorney E. E. Wingert, of Dixon, subject to the action of the Republican primary. While the purely criminal work of this office appears to be diminishing, on the other hand the business aspects of the gate and county are rapidly increasing in importance and complexity, with problems which the new constitution will add to, so that the public good requires, as perhaps never before, the aid of experienced and capable attorneys in its legal departments.

Mr. Wingert respectfully submits that his extensive and successful work as a trial and consulting attorney in this and other counties qualifies him for the conduct of the office he seeks. After graduating from Dixon College and Michigan University he was admitted to the bar in 1889 and has practiced his profession at Dixon ever since. He has had an unusual experience in the conducting cases of first class importance and intricacy, and has engaged in nearly fifty suits in the Appellate and Supreme Courts. While never specializing in criminal cases in former years he was often employed therein and secured perhaps the only acquittal ever gained in a contested murder case in Lee county. At one time he was appointed by the Circuit Court as special assistant to prosecute a sensational line of cases. He has been twice City Attorney for Dixon, and represents many banks, insurance, municipal and other corporations. Always an advocate of rotation in office he asks for one term only, if elected.

Philippine Party
Urges Independence

By Associated Press Leased Wire

Chicago, June 2.—A delegation from the Philippine Islands, headed by Jaime De Veyra has arrived in Chicago to urge the adoption of a full independence platform declaration by the Republican party.

"By the Jones law of August 29, 1916" declared Mr. De Veyra the Philippines were promised their independence as soon as a stable government could be established on the islands. The Philippines have that stable government today. America's official representative in the Philippines testified to its existence.

SENSATIONAL
ACCUSATION
MADE TODAYPennsylvania Man
Says Wets Want At-
torney General

By Associated Press Leased Wire

Washington, June 2.—Charges that the campaign for the nomination of Attorney General Palmer as Democratic candidate for the presidency had been conducted in Pennsylvania with an open appeal to the distillery and brewery interests in the state were made today before the senate investigating committee by Eugene C. Bonniwell of Philadelphia.

Bonniwell, who distributed stickers during the primary campaign seeking the nomination of W. G. McAdoo, said that saloons and bonded warehouses in some parts of the state were now running "wide open" and that this was proceeding under the eyes of department of justice and prohibition enforcement officers of the federal government appointed "with Mr. Palmer's view."

The witness charged that the Palmer campaign in Pennsylvania had been a "ghostly and debasing degradation of law." He added that the campaign he conducted for Mr. McAdoo had been entirely the work of himself and his colleagues and against the specific refusal of Mr. McAdoo to allow his name to be used.

Quiz Plumb League Head

The committee today examined Edward Keating, former member of congress from Colorado, and now manager of the Plumb plan league. He said the league had not contributed "a dollar" to the campaigns of any of the candidates for the Republican and Democratic presidential nominations. "It is taking no part in the campaign," he testified, "except as it is distributing information through its weekly paper Labor."

"I've rather gathered the impression that your paper is supporting McAdoo for the Democratic nomination and Senator Johnson for the Republican," said Chairman Kenyon.

Mr. Keating replied that the paper had probably been more "critical of the other candidates than these."

He added that the 16 railroad labor unions supporting the league had a campaign committee, and said this committee might have sent out "information as to the attitude of Presidential candidates, but that was all, up to date."

"You've got a plan as to the future then?" asked Senator Reed, Democrat, Missouri.

"Why, yes," Mr. Keating said. "We have reported to our organizations that to do future work in this campaign will require \$10,000 and they have undertaken to ask for a contribution of one cent from each of their members."

Gets \$1000 Per Month

Glenn E. Plumb, he said, was on a salary, but he objected to giving the amount, declaring that the question was outside the scope of the investigation. Senator Reed insisted and Mr. Keating said Plumb received \$1000 a month, "about one-half of his usual income" as a lawyer in private practice, now abandoned.

"You intend to make the Plumb plan a national issue in this election?" Senator Reed asked, referring to the plan for tri-partite control of the railroads.

Mr. Keating agreed that the league's activities "would be directed indefinitely" to getting the plan in actual operation and that this had to be done by effort in political fields.

Corn Price Mounts Under Big Demand

By Associated Press Leased Wire
Chicago, June 2.—Active commission house demand for corn today found the market bare of selling orders, and led to a sharp upturn in prices. Failure of railroad measures to enlarge the receipts of corn here counted strongly as an incentive to buy. Moreover, 2 advices indicated that the 1920 grain season was uniformly ten to twenty days late throughout the entire list of states that as a rule have a surplus yield. Opening prices, which ranged from 1½c decline to a like advance, with July \$1.72 to \$1.73½ and September 1.58½ to 1.59, were followed by decided gains all around.
Oats like corn showed the influence of continued transportation difficulties. After opening unchanged to ½c higher, including July at 91½c to 9¼c, the market scored a pronounced general advance.
Provisions lacked support. Lard especially was weak.

How Fast We Die

A Race of People Who Fight the Hand of Time

The population of the world is about 1,600,000,000.
The average age of death is about 33 years.
About 57,374,753 die annually.
Nearly 508,526 die weekly.
About 5,310 die hourly.
Almost 90 die every minute.
About three die every two seconds.
Sixty persons have died while you have been reading the above.
Death at 33 (before our prime) seems very short. From 20 to 35 is regarded as the sweet summer of life. Adventures, loves and romances are usually linked with those years, after which comes the problem of how to fight off early old age, premature senility and the distressing, despondent life that usually comes to us in the winter of our lives. In the famous Balkans, or that part of Europe known as the Near Orient, live a hardy, rugged people. Though brave and fearless, they are a pastoral people. Their fellowship with nature has given them priceless secrets in botany, plant life and agriculture. Two-thirds of the rarest and most precious perfumes (saffron of roses) comes from Bulgaria. The Bulgarians gave the idea of fermented milk to the world, and it is generally known that in Bulgaria, in a population of 1,600,000 people, 1,600 live to be 100 years or over, while here in the United States it is regarded as a rare news item when any one reaches the century mark. Their one great family remedy upon which they rely and which for centuries has been handed down from one generation to another is the famous preparation called Bulgarian Blood Tea, composed of roots, bark, leaves, seeds, berries, herbs and flowers. A teaspoonful of these herbs brewed in a cupful of hot water and taken at bedtime eliminates the fatal toxic poisons which are responsible for early old age and most of the ills we suffer. Bulgarian Blood Tea is today used the world over and praised by millions of sufferers fighting disease and warding off old age weaknesses. They include happy girls budding into womanhood or women crossing precarious thresholds of life. All praise and recommend it. Men recover their strength and vitality, the blood becomes rich and pure and the snap and sparkle of good health returns to those who were in despair. Just ask your druggist today for a trial package of Bulgarian Blood Tea and you will never regret the time you spent in reading this item.

Sterling Says

The Great Danger of a Little Bug and the damage a moth can do

BED BUGS

OUR BED BUG KILLER is all the name implies. It is a killer, clean and safe to use, non-inflammable, non-explosive, non-poisonous.

ROACHES

ROACH POWDER or ROACH SALT, the two best forms and the quickest killers for this food-destroying pest.

MOTHS

MOTH balls, powders and flakes, tar paper and tar bags. Every moth protection, fresh and best.

FLIES

Papers, poison or sticky, pyrethrum powder and swatters; traps, too.

Bugs about the house indicate by their appearance the untidiness of the home. This is a slur against the housewife which is unwarranted and unjustified, because bugs are not there at her invitation. Let every housewife do the best she can to eliminate bug troubles, and they are troubles as every woman knows. We sell the best of bug killers no matter for what use and it will pay any woman to talk this matter over with us, let us help select just those kinds best adapted for quick expulsion of every biting, flying, crawling, health annihilating, food-destroying insect pest. A little money in an equipment of this sort is a mighty good investment.

Insects on Your Plants and Vegetables

Specializing in insect killers, we also have those kinds best adapted for plants, trees, bushes, vines, and vegetables. Everybody with indoor plants or with an out-door garden needs the insecticides which we sell and which we guarantee best. An important subject, an important line, and it should be further discussed between us.

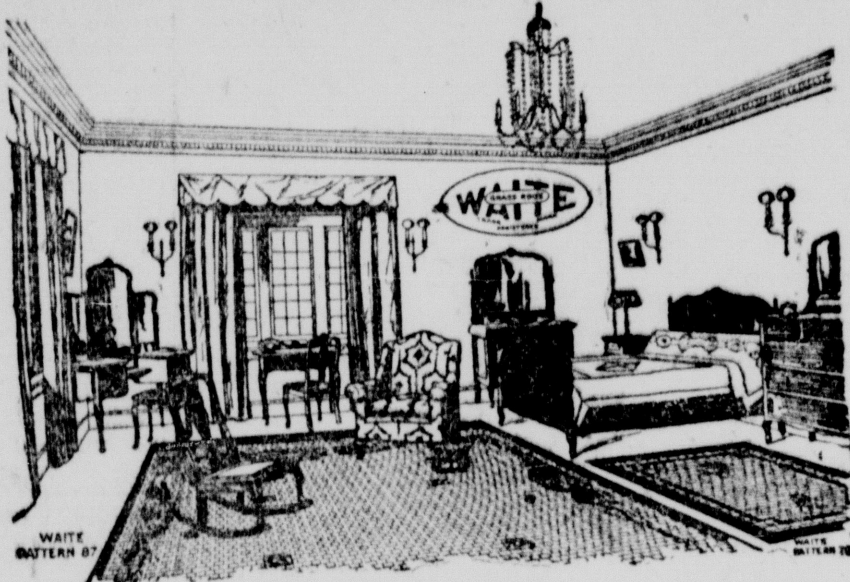

ROSE BUGS

A killer for rose bugs and bugs on all living flowers and bushes. Mighty powerful.

SQUASH BUGS

Squash bugs, tomato bugs, cucumber bugs and others. The best thing of its kind we ever sold.

RUGS of moderate price

We've just unpacked a big variety of the LOVELIEST inexpensive rugs you ever saw—rugs of the "WAITE" Grass line.

Of "WAITE" Grass rugs, there are three distinctly DIFFERENT types; the STANDARD "Waite" Grass rug that is made with handsome stencilled borders, well warped and well finishd, excellent wearing qualities. The VOGUE "Waite" Grass rug made with the borders WOVEN through, so that BOTH sides are alike, the best quality of warp and of the daintiest imaginable colorings.

The SUPER-WAITE "Waite" Grass rug made EXTRA heavy, DOUBLE the amount of running warp, conventional designs and rich colorings.

Standard Vogue Super-Waite

Three different KINDS of grass rugs among which you'll find rugs appropriate to ALL the various rooms of your home and many that are fine for porch use too.

In our judgment, there's NO rug for a similar price that equals the "WAITE" Grass Rug and we'll gladly show you the entire line

Wool and Fibre Rugs

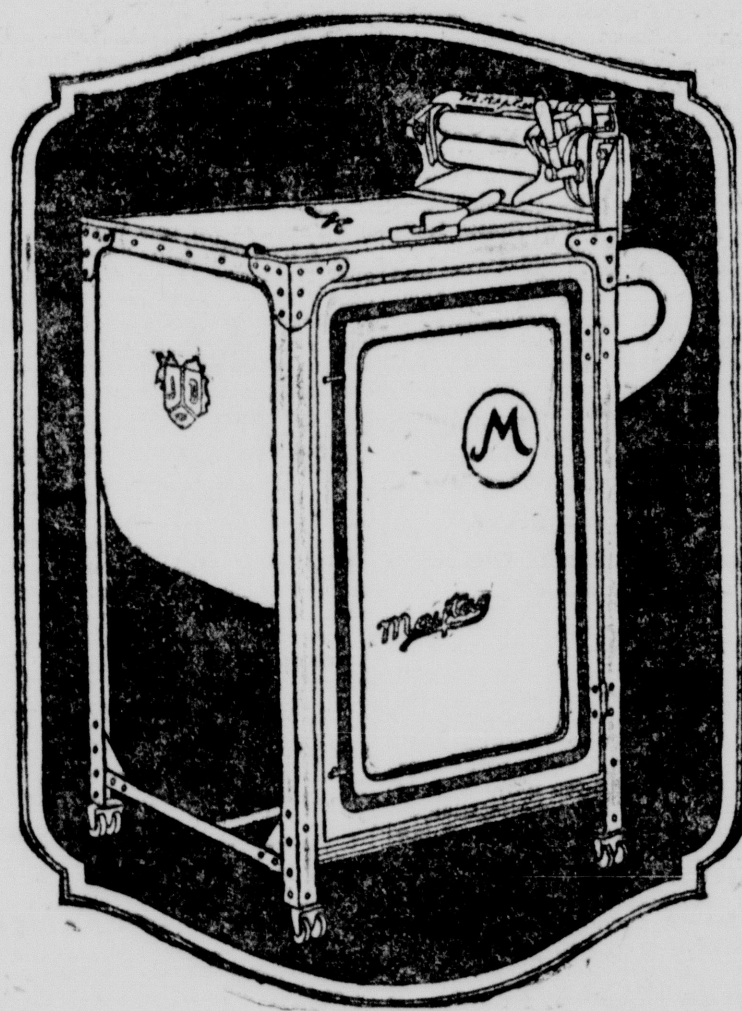

We offer an excellent variety of patterns of wool and fibre rugs also, sizes 6x9 to 12x15 ft., priced from \$8.65 up.

Of Course

we show some of the IMPORTED grass rugs too, the JAPANESE Grass rugs, and the moment you compare them with American made "WAITE" Rugs, you'll realize the SUPERIORITY of American made goods.

THE MAYTAG MILLRACE PRINCIPLE CONVERTS THOUSANDS

EVERYWHERE the question is asked, "Why has principle of washing! We know women are thinkers. We know they realize that a washing machine built upon scientific principles is basidy right and will do the work.

That is why women prefer the Maytag. It is why thousands who never before used washing machines have been converted by the astonishing results produced in the Maytag.

Maytag

Cabinet ELECTRIC WASHER

Think of washing heavy blankets, portieres, couch covers, rag rugs, etc., perfectly. And then, in the same half hour, cleaning dainty boudoir caps, georgette blouses, delicate lingerie and other fluffy, frilly things to spotless purity in the same machine—all by electricity—without labor—with a minimum of water and soap — and in half the time you can do it by hand.

Do you wonder women prefer the Maytag? Do you wonder it converts them to the washing machine idea? Come for a demonstration of the Maytag and the Millrace Principle. Don't wait another day. You, too, should have one of these beautiful machines. Or if you prefer to have the Maytag demonstrated in your home, phone us.

30TH ANNIVERSARY—

The Phidian Art club held a most enjoyable meeting at the home of Mrs. J. L. Hartwell on Tuesday afternoon. This final meeting of the year celebrated the 30th anniversary of the founding of the club.

The meeting was opened by the new president, Mrs. Harry Warner, under whose guidance a club year full of enthusiasm is anticipated.

The Smith orchestra delighted the club members with three beautiful selections. "The Mooseheart March," composed by the director, Mr. Will H. Smith, "Oh Promise Me," by DeKoven, and "The Egyptian Pyramids."

Miss Vivian Graves recently returned from a very successful concert tour, sang "Esmali," by Patterson, and responded to appreciative applause with two encores. "There is No Death," by O'Hara, and "Carry Me Back to Ole Virginia." Miss Graves is a pupil of Mrs. Herbert Martin, who persuaded her to sing for the club.

The Phidians feel very much indebted to the Smith orchestra and Miss Graves for these musical treats and are most appreciative of their kindness.

Another happy occasion of the afternoon was the presence of Mrs. Law, the founder of the club, who gave a very interesting resume of the early history of the Phidians.

The reports of the District Federation meeting at Millersville were given by Mrs. F. X. Newcomer and Miss Hitchcock and they were very much enjoyed. Mrs. A. F. Moore and Mrs. Harry Warner gave very interesting reports of the State Federation meeting held in Chicago last week.

At the close of the meeting a social hour and tempting refreshments were very much enjoyed.

WEDS NEW YORK DOCTOR—

Announcement is made by Mr. and Mrs. Henry Lebowich, of New York, of the marriage of their daughter, Pearl, to Dr. J. A. Miller, on Friday evening, May 28th, by Rabbi Stephen Wise in his synagogue in New York City. Dr. Miller was a major in the American Expeditionary Forces and saw service in England and Italy. His bride is a most delightful and charming young woman and is a graduate of one of the New York hospitals, later following her profession in New York. The Henry Lebowich family have many friends in Dixon, where they formerly resided, who will be interested in the announcement.

HIKE ON THURSDAY—

The hike to Lowell park by the ladies of the Y. M. C. A. which was called off on account of rain, will be held tomorrow evening, Thursday, and the same plans will be carried out. Baskets left at the Y will be taken out by auto and the hikers will take the 6:30 car to the Country club and then hike thru Hazelwood to Lowell park. Supper will be an individual affair and each will bring their own eats, but coffee will be served to all who bring their own cups.

FOR MISS HASSELBERG—

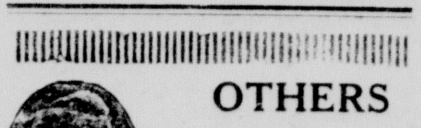

Mrs. William Wilson and Miss Carrie Smith entertained at the home of the former on Monday in honor of Miss Clara Hasselberg. The members of the Past Noble Grand club of the

Miss Smith presented Miss Hasselberg with a beautiful linen tablecloth, a gift of the club members. The hostesses served delicious refreshments. Garden flowers were used in decorating the house. Miss Hasselberg is to be a June bride.

PAGEANT REHEARSALS BEGIN—

Rehearsals for the Dixon Community Hippodrome, the Folies of H. C. L., to be given the evenings of June 18 and 19th in the auditorium at Assembly Park for the benefit of the American Legion, Dixon Post No. 12, began Monday in the armory and all members of the cast are entering into the rehearsals with a great deal of enthusiasm. Miss Florence Magill Wallace, pageant director for the state of Illinois, is here directing the rehearsals and one has been held each evening of this week. The rainbow dancers and the Persian dancers are to meet for rehearsal this evening at 7:30 at the armory. Tomorrow evening is meeting night for the American Legion and as a hundred men of the Legion are members of the cast, the rehearsal will take place after the meeting.

PIANO RECITAL—

The pupils in piano of Miss Elizabeth Raymond gave a recital at her home Monday evening, with the parents and members of their families as guests. The selections given were a credit both to the pupils and to Miss Raymond. Bridal wreath, arranged in bouquets, decorated the rooms where the recital was given and refreshments were served by Miss Raymond during the evening. The guests numbered about thirty.

TO OBERLIN COMMENCEMENT—

Miss Elizabeth Raymond will leave on Monday for Oberlin, O., where she will attend the festivities attendant to graduation of Oberlin College, where Miss Raymond was formerly a student. On the 20th of June she will leave Oberlin for Cleveland where she will join Dr. and Mrs. Thompson and return with them to Dixon. Dr. and Mrs. Thompson are motoring to Cleveland.

FOR EIGHTH BIRTHDAY—

Little Miss Marvel Schoenholz entertained nine of her little friends on Thursday with a party from two to four o'clock in honor of her eighth birthday. White and green decorations were used most effectively, with lilies of the valley and other white flowers in abundance on the luncheon table and about the house. A very dainty luncheon was served. The guests included: Helene Reynolds, Jessie Louise Tidball, Louise Murphy,

Frances Forsyth, Merna Suter, Lucia Morris, Jean and Cecile Hamilton, and Dorothy Trowbridge.

GAVE RECITAL—

The pupils in Music of St. Mary's school gave a delightful musical program in the Knights of Columbus hall on Monday evening. The program was a lengthy one of thirty-three numbers, but was so varied and each number so well rendered that it was listened to untiringly by the large audience of about two hundred ten people. In the program forty young people participated, giving both instrumental and vocal numbers, of classic and modern composers.

AUXILIARY ENTERTAINED—

The members of Baldwin Auxiliary delightfully entertained the members of the United Spanish War Veterans, Baldwin Camp, at G. A. R. hall on Tuesday evening. Misses Keyes and Street furnished some pleasing musical numbers and cards followed as the diversion. Ice cream and wafers were served by the auxiliary as refreshments.

FOR VACATION VISIT—

Miss Alice Lehman, who is a student in the Bethany Bible Seminary, of Chicago, is expected to come home on Thursday for a month's vacation visit with her parents, Mr. and Mrs. W. W. Lehman. On the first of July she will go to Ohio where she will instruct young people in the bible in a number of the churches of The Brethren there. The seminary is sending young people out in groups of three for this work.

W. R. C. ATTENTION—

The members of the Woman's Relief Corps are requested to meet at the home of Mrs. Decker, 212 Dement avenue, on Thursday afternoon at 3 o'clock and from there proceed to the cemetery to decorate the graves of the deceased members. Each is requested to bring all the flowers possible.

Our Candidate for President
FRANK O. LOWDEN

THE JACK BEAN
Be not deceived by the jack bean
promoter.
Better cling to the good old lima,
the navy, and other time-tried beans
father used to grow in his garden.
And try wildcat oil stocks, financing
trips to the moon, or betting on a
horse-race as a surer method of get-
ting rich quickly.
The jack bean is a wealth producer
only to the jack bean promoter.
So says the United States Depart-
ment of Agriculture.
West Indian tribesmen plant the
jack bean around their crude gardens
in the belief that the plant will pun-
ish trespassers.
Civilized folk plant the jack bean
in the belief that the giant pods will
fatten abnormally the grower's pocket-
book.
And, one is about as near right as
the other.
The jack bean won't drive away
trespassers; it will not return as
much money per acre as the navy
bean.
Unscrupulous promoters sell jack
beans under various aliases, usually
a new one each year, such as "Pear-
son bean," "Wonder bean," "Wat-
son bean," "Gotani bean," "South
American coffee bean," etc. They
point to the green herbage, and pre-
dict wonderful profits from the "new
bean."
Fancy prices are asked for seeds
of the jack bean, and the promoter is
selling the bean under a different
name next fall. The farmer is back
to the navy or lima.

PROFITEERING
"It is expected," says the Wall
Street Journal, "that Cuban-Amer-
ican Sugar Co., will be able to maintain
dividends at the rate of \$1.75 quar-
terly on the new \$10 par stock. While
dividends paid and payable this year
amount to the equivalent of \$4 a
share on the present stock, it is
pointed out that payments may easily
be continued at \$1.75 quarterly next
year, which is the rate established
for the last two quarters of 1920."
Just what does that mean to the
housewives of the nation who have
to pay for that sugar? The \$4 a
share to be paid to owners of stock
in the Cuban-American will require
only a little mite of \$4,000,000. That
sum will be paid by sugar users to
the gentlemen who own the Cuban-
American for a living. But that is
not all. In addition, the last of
some serial notes falling due January
1, 1921, and amounting to \$2,000,000
equal to \$2 a share on the common
stock, will all be met out of this
year's earnings.
The Wall Street Journal cheerfully
adds:
"Average selling price of the 1919
crop will be well up towards dou-
ble the previous season's figure of 5 1/2
cents f. o. b. Cuba, on which price
the company MADE \$68.38 A SHARE
ON THE OLD STOCK AFTER ALL
DEPRECIATION, INTEREST AND
TAXES."
Next time your grocer tells you
that "the big wages paid to labor"
is the cause of high sugar prices, just
remember that \$68.38 a share that
went to the Cuban-American, and
that six million to go out to its own-
ers this year.

BILLIARD FACTS
The game of billiards, old as it is,
has become as scientific as it is, in grow-
ing popularity. Especially so here in
America, where, with liquor legally
handed, new billiard parlors are
bringing up as one of the amuse-
ment factors to take the place of the

BRINGING UP FATHER.

saloon where the billiard table was
possibly only a "side line."

It may be interesting to know that
only three billiard balls can be carved
from a tusk of an elephant. That
is due to the fact that about two-thirds
of an elephant's tusk is hollow, leav-
ing "solid ivory" for carving for the re-
maining one-third. The balls in the
rough are allowed to season for two
years before finishing. Heat and cold
affect them. They crack in either
extreme easily.
The billiard cue, ordinarily, is four
feet and nine inches long, weighs be-
tween 18 and 20 ounces, and the tips
on the best of them, according to an
authority, are made "from the leather
prepared from the hide of the
cheek of a calf."

The "spot" on the spot ball, which
serves as one of the cue balls, is made
by drilling the nerve center, which
held the nerve that fed the tusk in
the body of the live elephant, and re-
placing the part drilled out by a
piece of ebony.
As many as 3000 points have been
made at this game without missing
a single shot; that is, hitting the two
object balls with the cue ball.

SUNLIGHT AT NIGHT
Classing cotton by electric light
has been made possible by the use of
blue-tinted globes by Ralph Worme-
ley, instructor at the Knights of
Columbus night school for ex-soldiers
at Memphis, Tenn. Cotton authori-
ties had always contended that the
work, which is suspended by official
order of cotton exchanges on cloudy
days, could only be done by sunlight.
"The day probably will come," says
Wormeley, who has been classing
cotton for 30 years, "when cotton
offices will do away with their sky-
light exclusively. I find that I get
better results by this method because
the light is always uniform and the
work is not subject to the changing
conditions of the sun or limited to
the sun's hours."

Wormeley devised the plan when
asked to become instructor in cotton
classing at the night school. Obvi-
ously, sunlight is impossible at a
night school, so Wormeley began ex-
perimenting with electric lights of
different colors. He found that the
plain white light would not do the
work because of a peculiar ray it
contained which made classing de-
ceptive, but he finally overcame this
by using blue-tinted globes.

Wormeley's plan is now being
adopted in other night schools
throughout the south.

"WILL GROW THAT WAY"
Once upon a time there was a
child who made ugly faces, and the
others used to warn him that the face
would grow that way.

But he looked in the glass and
found that it did not. He could still
smile as merrily as ever.

And so he went on making ugly
faces as often as he liked, and think-
ing the ugly thoughts that went with
them. And he did not look much in
the glass to see if he could smile.
And he did not try to see his smile
reflected on the face of others.

But he thought of his troubles and
his wrongs and of all the things he'd
like to do to his enemies.

And that upset his digestion, and
he got dyspepsia, and the dyspepsia
made him more enemies to do things to.
And now when he passes people say,
"What an ugly face!"

When two Mexicans start out on
a career of banditry they probably
toss a coin to see which one will be
the general.

Palmer will never turn the trick un-
til he discovers a way to list prom-
ises on the stock exchange.

Well, why should anybody run for
vice president while brick-layers are
paid at the present rate?

One can no longer find an appeti-
zer, but, considering the price of
food, it is perhaps just as well.

It seems that almost everybody
agrees that the other fellow should
get back to the farm.

The fact that the next war will be
in the air doesn't cause so much worry
as the fact that the present peace is.

ADVENTURES
OF THE TWINS
by Olive Roberts Barton

The Land of Dear-Knows-Where
The Land of Dear-Knows-Where is a most remarkable place. It is in the
Kingdom of Fairyland, right across from Topsy Turvy Land and round the
corner from Scrub Up Land.

I'm sure now, that you know exactly where it is and could go straight to
it—if you had Nancy and Nick's Green Shoes. And I'm sure, that you'd
have a wonderful time, as they had, if you had a fairy friend along with you
like the Magical Mushroom to help you understand what everything and every-
one was saying, and to give you good advice.

This unusual country gets its name in this way:
When the birds and animals leave Scrub Up Land in the spring and come
to the land you and I know about, to have their homes for the summer, they
act a lot like people do when moving day comes. Mr. Muskrat says to Mrs.

Mr. Muskrat says to Mrs. Woodchuck as they meet at the spring, "Where
are you going to live this year, Mrs. Woodchuck?"

Woodchuck as they meet at the spring: "Where are you going to live this year,
Mrs. Woodchuck?" And Mrs. Woodchuck, just like a real person, throws up
her hands and says, "Lack a day, Mr. Muskrat, dear knows where! And Mr.
Muskrat says the same thing.

After people talking so much about dear knows where they were going to
live, the woods and the orchard and the meadow, and all outdoor land got a
new name finally, and that was it. The Land of Dear Knows Where!

Only—and here's a secret—it's got a fairy landlady to look after it. No
one knows about him—at least they never did before, but you know about
him now, you see. His name is Tingaling, and he works for the Fairy Queen
just as Rubadub does in Scrub Up Land. And he is the very busiest fairy you
ever knew.

Smile Awhile
BY LEE HINGSTON

A smoker of thick, black cigars, a satrap of the stage, a manager of 40
years, remarked, "The highbrows rage.

"In letters to the papers, 'Why,' they ask 'the bedroom play?' My easy
answer is that I have found that bedrooms pay.

"And I will do 'Othello,' though I couldn't make a red unless I changed
the name, and so, it's 'Strangled in Her Bed.'

"When I put on Miss Capulet and Mister Montague, I think 'How Could
You, Juliet,' above the door will do.

"And shall I send old Shylock forth as Booth did? Not at all. Remember
what a name is worth. I'll have 'The Fleishy Call.'

"Though 'Hamlet' once went pretty fine to gather in the seats, 'The Nutty
Princess' is the line to bring the modern lads.

"Yes, Bill H. Shakespeare's stuff is good to feed the fussy dames, but then
Bill never understood constructing classy names."

Middle Europe isn't much better off
when the dog of war flees; the fleas
they have with them always.

And so the price of hides is coming
down. Huh. Sugar hides, and it isn't
coming down.

Down in Mexico it is a hard job to
get elected, and even harder to get
away.

What this country needs is some-
body who can put the profiteers in
fear of the old-fashioned hell.

COMMON SENSE.
Every person realizes that any ma-
chine in constant use should have
supervision at regular intervals. No
farmer tries to run his moving ma-
chine or other machinery without
having it overhauled occasionally. A
motorist does not wait for his auto-
mobile to break down before having
necessary changes or repairs made.

Then why should people wait until
they are driven by distressing sym-
ptoms before consulting a physician?
Every adult person should visit a
physician and have a thorough phys-
ical examination made at least once
a year. Thus can a person have a
yearly inventory of his physical con-
dition. There are many diseases that
begin slowly and insidiously. Period-
ical physical examinations will afford
an opportunity for the recognition of
an abnormal condition. Upon recog-
nizing the early beginning of a disease
measures can be promptly taken to
check it. The examinations conducted
by the draft boards showed that over
30 per cent of the young of the coun-
try between the ages of 21 and 31
were physically unfit for military ser-
vice. Many of these young men had
physical defects of which they were
not aware.

Tuberculosis, cancer, Bright's dis-
ease, diseases of the heart and circula-
tion, intestinal diseases and others
more or less chronic in character can
be recognized early by a careful ex-
amination.

All medical examinations should be
thorough. An examination of the
heart or lungs through the clothing
is inaccurate.

An examination is not complete
without an examination of the teeth,
and of the urine, blood, blood pressure
and an examination of the stools in
persons living in sections where hook-
worm disease or amoebic dysentery is
prevalent.

Q—Are sore eyes in a new-born
baby serious?
A—Any condition of inflammation
or sore eyes in new-born babies
should be regarded seriously. If the
eyelids of a baby less than a month
old become red, swollen, and pus is
discharged from the lids, do not neg-
lect it, but summon a capable physi-
cian at once. Do not think it is "cold
in the eyes" or something of little im-
portance. Many cases of blindness re-
sult from neglected cases of sore eyes
in new-born babies.

Sore eyes in new-born babies can be
prevented in practically all cases by
putting special "drops" in the baby's
eyes immediately after birth. Every
doctor and midwife should use these
"drops" in every case they attend.
These "drops" consist of a 1 per cent
solution of silver nitrate.

Q—What is trachoma?
A—Trachoma is a chronic disease
of the eyelids. Untreated it lasts the
greater part of a lifetime. It is trans-
mitted from the sick to the well by
the secretion which is conveyed to the
healthy eye by means of infected tow-

disease can, in the majority of in-

Confessions of a Bride
(Copyright 1920, by The Newspaper Enterprise Association)

As we neared home, my mind turned to dear Mother Lorimer. She had
been distinctly out of all the adventures of the Lorimer family for several
months. Her only share had been
the big worries we had heaped upon
her. Finally they had all culminat-
ed in the grief which all widows
know. Thus does life treat many
old women and not even her vast
riches could save Mother Lorimer
from the common lot of her sex.

But somehow I couldn't feel alto-
gether sorry for Mother Lorimer except as she mourned for Daddy. I knew
that her days had been crammed with joyful experiences while we were gone.
There was the sweet Baby Babs to be cared for and played with; there were
lectures and concerts and plays; and pleasant people to meet; and always books
—and more books.

Mother Lorimer could never be unhappy because her mind was stocked
with such a variety of interests. By nature she was resourceful and adapt-
able. She "fitted in" any group of persons. She never bored anybody. There
were no empty moments in her life.

Looking over the smartly dressed women on the train, I couldn't help
wondering what would become of them all when they should grow old. It seem-
ed to me that most of them were going to be rather unhappy. They had no
resources, like Mother Lorimer. They had given their minds to but one sub-
ject—how to be beautiful. Their success in that was the measure of their sex
value—their market value in marriage. I know that lots of them would
have resented the idea, but the fact remained, just the same. One could tell
by their cosmetics and clothes. Everybody realizes that the modern girl is al-
most too sophisticated. She has to be or she would not get a husband. The
competition for husbands has never been so great.

As long as a woman's beauty lasts, her attraction for her husband will
endure. But that attraction may end some day. Perhaps her man may die in
middle age. And when time has withered an ordinary woman—what is there
left for her?

Indifference to old women has actually left its mark on the screen and the
drama. Old wives have disappeared from the films, except when required in
some mothering part. And when an old man in a play happens to be married,
the wife is invariably his second venture, and of the young and pretty variety.
That is what the audience demands. But off stage, women continue to grow
old.

As I meditated, it seemed to me that a new and strange variety of "old
woman" was on the way, such a variety—without resources or compensations
—as had never been known on the earth. Even industry had no place for
them. Formerly, a grandmother could tend to the fires and make the chil-
dren's blouses. But now the janitor watches the coals, and the clothes are
made in the shops.

The reward for cramming her brain and her heart with interests, as Moth-
er Lorimer had done, must give any woman a vast amount of genuine satisfac-
tion at the end of her life, I thought. But the result of thwarting nature, as
many childless women do, for the sake of keeping their own beauty, means ut-
ter wretchedness in old age.

Mother Lorimer greeted us with the bravery we expected to find. That is,
she did not shed a single tear. Her sons liked her that way, and she knew it,
but I felt that she would have to pay for her admirable poise in the stillness
of her own chamber.

"We don't give up hope, you know, Mother," said Bob. "Jim and I are go-
ing back, now that we've handed the girls over to you and have seen and talk-
ed with you."

And going back would be so futile, I thought. And it means that I have
got to stay in the big house with Mother and Chrys when I am simply wild to
get back to my own wee home, simply mad to set up housekeeping with Bob
again.

Again? Come to think of it, this is going to be our third honeymoon!

Yanks Are Humbugs Declares Mex Paper

By Associated Press Lensed Wire
Mexico City, June 2.—Recommendations that a new treaty be arranged between the United States and Mexico, coupled with the advice that if Mexico refuses to enter into an agreement to protect Americans the United States should intervene in this country which were made on May 31 by a subcommittee of the United States senate foreign relations committee are denounced by a newspaper here today.

"Humbug is at the bottom of Yankee character," says the Journal "and Barnum was the finished individual of the species."

Sister Mary's Kitchen

Even the plainest kind of desert will be hailed with delight if served with whipped cream.

Whipped cream has a very definite and high food value. It furnishes fat in a form easily digested and unless very much sweetened produces very little heat.

In planning a meal reduce the amount of fat in the meat course if whipped cream is to be served with the desert. Use a simple green salad and let the cream take its full responsibility in the diet.

Menu For Tomorrow
Breakfast—Uncooked cereal with strawberries, cinnamon toast, coffee.
Luncheon—Rice and nut roll, health bread, combination salad, tea.

Dinner—Lamb steaks, mint jelly, baked asparagus, new potatoes, radishes, orange strawberries, sponge cake, coffee.

My Own Recipes
If one bears in mind that graham or corn-meal or any of the coarser milled flours are in themselves a cereal, it just naturally follows that, when there is a cereal for breakfast, toast should be used. The rice and nut roll is most nourishing but a concentrated food, so the health bread supplies the "ballast" and the green salad the minerals and piquancy.

Baked Asparagus
1 bunch asparagus
2 tablespoons butter
2 tablespoons flour
1 cup milk
2 eggs
Salt
Paprika

Wash asparagus and cut into half-inch pieces. Cook in boiling water till tender. Asparagus is very susceptible to salt, so 1-2 teaspoon will be enough for one bunch of asparagus. Melt butter, stir in flour and add milk slowly. Beat eggs and add. Add drained asparagus. Turn into a buttered baking dish and bake 15 minutes in a hot oven.

Orange Strawberries
1 quart berries
1-2 cup powdered sugar
2 oranges
Wash and hull berries. Put a layer of berries in a deep dish. Sprinkle with sugar, add another layer of berries and sugar and continue until all is used. Pour over the juice of the oranges. Let stand on ice from one to two hours.

Even philosophers, artists, poets—be their hair ever so long—cat!

THE CHAMP CLARK-WILSON CONVENTION OF 1912

"It was William J. Bryan who was chiefly responsible for Clark's defeat."

By GILSON GARDNER
The Democratic convention of 1912 met at Baltimore and began with Champ Clark of Missouri as strongest candidate. On the ninth ballot, Clark had a clear majority of the delegates and on the tenth he polled 556 votes.

Had it not been for the requirement in Democratic conventions that the candidate must poll two-thirds of the vote, Clark would have been the Democratic nominee. But this requirement defeated him and on the forty-third ballot the convention chose Woodrow Wilson.

It was William J. Bryan who was chiefly responsible for Clark's defeat. He opened the convention with a charge that an effort was being made by "Wall Street" to dictate the nomination, and intimated that Clark's support by Thomas Fortune Ryan and Tammany Hall made the Clark candidacy impossible.

Clark was very angry over his defeat and at once issued a statement in which he said:

"I lost the nomination solely through the vile and malicious slanders of Colonel William Jennings Bryan of Nebraska. True, these slanders

were by innuendo and insinuation, but they were no less deadly for that reason." He concluded his statement: "I will support Governor Wilson with whatever power I possess and hope he will be elected."

The result was made possible by the "two-thirds rule." This rule is a queer historic legacy. It was invented by old Andrew Jackson when he was president, and boss of his party, and his purpose in inventing it was admittedly to enable him to substitute his will for that of the rank and file of the voters. Jackson was the pioneer of the Penroses, Cranes and the modern party bosses.

The National Republican party in 1831 held the first national convention. This was really an informal gathering of the friends of Henry Clay. It was, as we would now call it, a mass convention. It met in Baltimore in December and by a unanimous voice nominated Henry Clay as the party's candidate for president. This body recommended also the holding of a similar meeting of "young men" at Washington in May; and this gathering known as "Clay's infant class" met also and nominated him unanimously.

Wise old General Jackson, who was president, and who was unopposed as candidate for renomination, saw in this new method certain elements of popularity and having an instinct for "getting close to the people" he adopted this development of politics and set about calling the first important presidential convention to nominate some man for the vice presidency on the ticket with himself.

He had the convention adopt the following resolution, which is important, as it is the original of the famous two-thirds rule:

Resolved, That each state be entitled, in the nomination to be made of a candidate for the vice presidency, to a number of votes equal to the number of which they will be entitled in the electoral colleges under the new apportionment, in voting for president and vice president; and that two-thirds of the whole number of the votes in the convention shall be necessary to constitute a choice."

Miss Edna Hargrave, who is employed by the Fiske Millinery Co., in Chicago, has returned to that city after a two weeks' vacation visit at home.

This antiseptic adhesive powder gives a pleasing sense of security to wearers of false teeth. It allows complete mastication of foods with ease, relaxes facial muscles and prevents sore gums.—Adv.

G. O. P. COMMITTEE IS STILL CONFRONTED BY IMPORTANT CONTESTS

(Continue from Page 1.)

Few Make Predictions.

Political forces are gathering slowly here and while the pre-convention circle has its usual line of gossip and prediction no political leader of recognized importance has up to this time been willing to attach his name to a definite prediction of whom the convention will name as its candidate or when it is likely to do it. The end of the week with the probable adjournment of congress, however, will bring all the national leaders to Chicago and by Saturday or Sunday convention plans are expected to begin taking definite form.

Suffragists On Hand.

Representatives of the militant branch of the woman suffragists are on the ground preparing to picket the convention hall to enforce their demand for a platform declaration calling on the states which have not ratified the woman suffrage amendment to do so at once. The national committee yesterday by unanimous vote called upon all Republican states to act promptly on the ratification. The national committee are enjoying a joke at the expense of General T. Coleman Dupont, of Delaware, who introduced the resolution. The general's motion called for prompt ratification of the eighteenth amendment, which is the prohibition amendment. The resolution was passed in that form but after the mistake was discovered it was corrected.

The Johnson forces are counting on a burst of speed, with the arrival of Senator Johnson here tomorrow. A street parade and demonstration have been arranged. A large delegation of service men who saw service with the American forces in Siberia which the senator fought to have returned home, will be in the escort.

Candidates Gathering.

Senator Harding is coming also on Thursday. General Wood is here and at his headquarters at Fort Sheridan and Gov. Lowden is already here. Thus after tomorrow four of the presidential candidates will be on the ground conferring with their forces in person and a more definite line of pre-convention speculation probably will be one of the first results. In the coming convention the balance of power and already plans for sounding out their preferences are being discussed. A caucus of the uninstructed ones sometime after Sunday is one of the plans being canvassed. Quite irrespective of any decisions the national committee may make on the pending contests, the uninstructed delegates will still remain in the majority and the managers of the various candidates are working on plans to bring them to their support.

May Pass Up Prohibition.

Such discussion of the platform plank as is going on among the national committeemen seems to indicate that a majority feel that the prohibition question may be regarded as one not necessarily to be included, because the issue has been written into the constitution and has become the law of the land. Many committee men feel that the suffrage question is a parallel one in many respects, because it has been put before the state with the endorsement of the party and is awaiting ratification. In the field of foreign relations there seems to be an agreement of opinion that the Mexican plank will follow the pronouncement of four years ago in which the Democratic administration's policy was denounced, and as regards the peace treaty and the League of Nations, the plank adopted by the Indiana state Republican convention may serve as nucleus for the plank in the national platform. No one on the ground as yet presumes to venture what the labor plank will be but there seems to be a common agreement that it will probably be the most difficult one to frame.

McCormick May Preside.

A selection of a permanent chairman seems to have made no progress in the last three or four days. There is now less talk among national committeemen of the selection of former Senator Beveridge of Indiana and more talk of an agreement on Senator McCormick of Illinois. Political leaders here who are supporting Senator McCormick, claim to have the approval of Senator Penrose for their choice. If a contest should develop over the selection there is always the possibility that the convention might revert to the plan it followed in 1912 and 1916 and make the temporary organization the permanent one.

To Continue Present Wheat Standards

By Associated Press Leased Wire

Washington, June 2.—Continuation of present federal wheat standards was decided upon today by Secretary Meredith in an opinion covering hearings held to inquire into dissatisfaction in the central northwest with existing grades for hard, red, spring and durum wheats.

The federal standards established in 1917 and revised in 1918 have been in operation only under fixed price and war conditions, the secretary stated and opportunity for fair tests of their merits or defects has not been afforded under normal market conditions.

JAPAN BREAKS OFF RELATIONS WITH BOLSHEVIKI

Efforts to Form Buffer State in Siberia Cease

By Associated Press Leased Wire

Honolulu, June 2.—Japan has broken off negotiations with the Russian Bolsheviki for formation of a buffer state in Siberia, according to a Tokio cable to the Nippu Jiji, Japanese language newspaper here.

The breach in negotiations came about as a result of Japan's discovery of a plot to undermine General Semenov, commander of the all-Russian forces in Siberia and bring the Baikal region under the Bolsheviki, the cable stated.

POLES RESUME ATTACK.

By Associated Press Leased Wire

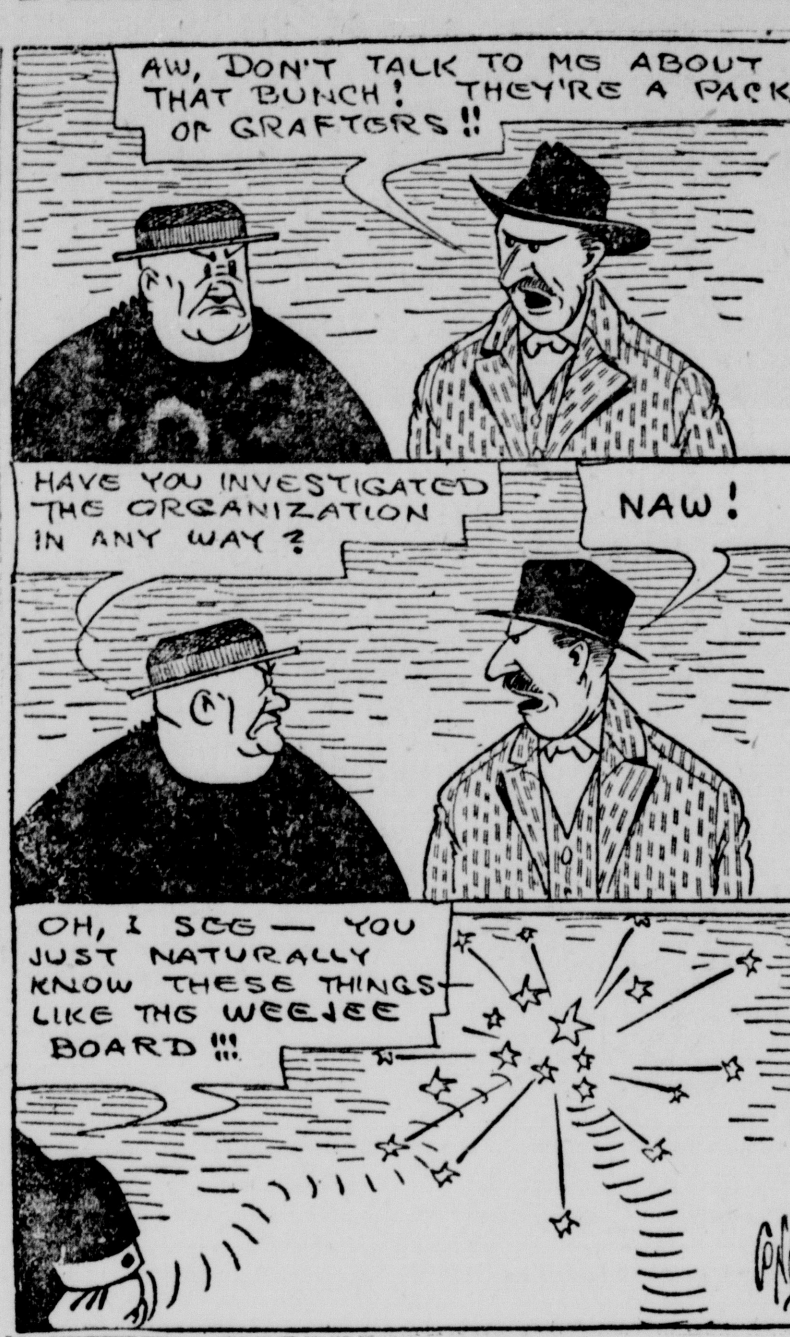

Warsaw, June 1.—Polish troops have turned to the offensive between Borsow and Bobruisk on the center of the front, which is under attack by the Russian Bolsheviki and on May 27 occupied the line of the Beresina river, according to an official statement issued at army headquarters here today. The spirit shown by the Poles in the fighting has "blocked the enemy staff's offensive plan," the statement adds.

Counter attacks against the Bolsheviki line on May 30 in the Plesienicz section were successful it is declared and several hundred prisoners and a number of machine guns were captured. South of Bobruisk Polish raids have resulted in the taking of prisoners and of war materials.

Millions for a New Stomach

One of the greatest American millionaires said to his physician, "A million dollars, Doctor, spot cash and no grumbling, for a new stomach," and then the sick man groaned and turned away. All his wealth could not make him happy or contented, for happiness largely depends upon digestion. Without health where does happiness come in? After all the stomach plays a great part in everyday life. Without a healthy stomach and good digestion our blood is thin, watery and poor, our heart action is weak, our liver does not do its duty, and man is miserable and unhappy. Prevent disease by putting the house in order and strengthening the system against the germs of disease.

Dr. Pierce, of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., years ago understood diseases and their prevention, and he discovered certain roots and herbs which were nature's remedies, and succeeded in putting them up in a form that could be easily procured at the drug store (liquid or tablets). This he called Dr. Pierce's Golden Medical Discovery. This Discovery gives no false stimulation because it contains no alcohol or any narcotic. It helps digestion and the assimilation of such elements in the food as are required for the blood. It gives to the blood the food elements the tissues require. For over fifty years it has enjoyed the confidence of the American public. Try it now!

Why a Majority of the Smaller Cars Come on Goodyear Tires

Last year more cars using 30x3-, 30x3½-, or 31x4-inch tires were factory-equipped with Goodyear Tires than with any other kind.

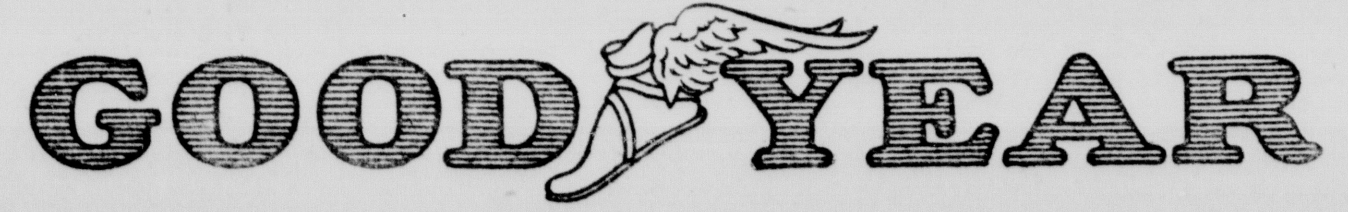

This is plainly a result of the high relative value produced in these tires for the smaller cars by Goodyear's enormous resources and scrupulous care.

They represent the same intense endeavor to supply utmost satisfaction in tires that has laid the basis for the marked preference which exists everywhere for Goodyear Tires in the larger sizes.

This real Goodyear value in tires is available for your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at our nearest Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Double-Cure Fabric, Anti-Weather Tread \$23.50
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water- \$4.50 proof bag

SAGE TEA BEAUTIFIES AND DARKENS HAIR

Don't Stay Gray! It Darkens So Naturally that Nobody can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, druggists here, because it darkens the hair so naturally and evenly that no one can tell it has been applied. Those whose hair is turning gray or being faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.
This is the age of youth. Gray, faded, unattractive hair, gray, faded around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days. This preparation is a true restorative and is not intended for the cure, mitigation or prevention of disease.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more sniffling, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

Inquisitors Hurry Campaign Fund Quiz

Washington, June 1. — A score of witnesses were here today to testify at the resumption of the senate committee's investigation of pre-convention campaign expenditures. Efforts were being made to expedite the hearing so that a temporary halt might be called Thursday night to permit all concerned to go to Chicago for the Republican convention.

Robert F. Wolf, publisher of the Columbus (Ohio) Dispatch, and the Ohio State Journal was the first witness called. He testified that his papers "had taken an active part" in the recent Ohio Republican presidential primary contest between Major General Wood and Senator Harding of that state.

"Politics in our state," he said, are in the hands of an inside coterie of men. I wanted to support Senator Harding, but told him that I could not do so if his candidacy went into the hands of this group."

More than sixty years ago, Gail Borden instituted in the public consciousness the possibility of a national "guaranteed" milk.

The formulation, no less than the maintenance of his code of purity—stricter than the legislation now enforcing it—commends the Borden Milk Products so highly to the nation today. For three generations the co-workers of this organization have labored to uphold their trust.

The Borden Service covers every milk need.

SAMSON
Model "M" Tractor

Just compare the first cost of the Samson Model "M" Tractor with the first cost of six head of horses. Then compare the annual cost of maintenance. Study these figures. They tell the story of Samson economy.

If you are operating your farm for profit you cannot afford to be without the Samson for heavy draft and heavy belt-power work.

The Samson Model "M" is built along simple, practical lines. There are but three units requiring the operator's attention—the steering wheel, the gear shift lever and the clutch pedal. It is easy to operate and easy to care for.

ILLINOIS MAN HAS GAINED 20 POUNDS

"I Can Do Twice As Much Work As I Could Before Taking Tanlac," States Miner.

"I have gained twenty pounds in weight and am feeling so fine I can do twice as much work as I could before I commenced taking Tanlac," was the statement made by Frank Penny, a well-known miner living at 1310 East Capitol Avenue, Springfield, Ill.

"For the last three years I have been going down hill and falling off in weight until I got down to one hundred and twenty pounds and was unable to work more than half the time. My stomach was all upset and I forgot what it was to enjoy a good meal for as soon as I got up from the table I would begin to fill up with gas that would crowd in close about my heart and cut my breath off. Many a time these choking, palpitation spells would knock me out entirely and I would have to leave my work. My nerves kept me on edge all the time for the least kind of unexpected noise would upset me. While at work terrible sick headaches often came on me and they were nearly always followed by attacks of dizziness and sometimes these spells lasted for twenty-four hours. I suffered severely from rheumatism in my arms and for weeks at a time I would have to lay off from work. Finally, the pains got so bad I couldn't raise my arms up and even had to have somebody to tie my tie and comb my hair.

"Well, sir, I was right, I figured Tanlac was the medicine I needed as I had heard so much about it, and it has done the work and I haven't a sign of any of my old troubles and am feeling years younger. Tanlac has shaped my appetite and put my digestive organs in such fine condition that I eat whatever is set on the table without being troubled at all. I am never bothered with palpitation, dizziness or sick headaches and my nerves are strong and steady. The rheumatism has left me so completely I can't tell I was ever bothered with it at all and I have free use of my arms once more. After a good night's rest I get up every morning ready for breakfast and go off to work feeling fine."

Tanlac is sold in Dixon by Public Drug & Book Co., and by the leading druggists in every town.

Mexican President Sworn in Yesterday

By Associated Press Leased Wire Mexico City, June 1.—Adolfo De La Huerta, elected provisional president of Mexico last week, took the oath of office at 5 o'clock this afternoon in the chamber of deputies.

The following case is but one of many occurring daily in Dixon is an easy matter to verify it. You cannot ask for better proof.

G. Sieling, 1206 W. Sixth St., Dixon, says: "I have been a stone mason for several years and it has been pretty hard on my back at time. I blame the heavy lifting for my kidney trouble. One day while lifting a stone, I was suddenly seized with a sharp, shooting pain across my back. I kept going from bad to worse and was laid up for a month, unable to work. My kidneys were in terrible shape and I had to get up at night to pass the kidney secretions and they contained a brick-dust-like sediment I used Doan's Kidney Pills and they cured me. I have no need of a kidney medicine now, as Doan's have made a permanent cure."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sieling had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Decay-Proof Fence Posts "My fencing is up to stay—thanks to Long-Bell Creosoted Yellow Pine Posts—the kind that last a lifetime." This is the united opinion of farm owners everywhere who are now using Long-Bell Creosoted Posts instead of the ordinary kind that rot and decay after a few years. Our posts are cut from selected trees of slow growth, air dried and yard seasoned, and treated by the Long-Bell vacuum creosoting process until distilled creosote is forced into every part of the sap wood. The germ of decay is killed, every fibre of the post is protected—there's no decay. Send at once for Free Circular regarding "The Post Everlasting"—and learn how to end all your post and fence troubles and save from \$20 up, each year now spent in repairs and replacement.

Says Christ Would Have Gotten on Well With Newspaper Men

By Associated Press Leased Wire Cleveland, O., June 2.—Reports of the publicity and community commissions were presented at today's session of the Church and Community federations of the federal council of Churches of Christ.

Christ would have gotten along with reporters famously, the report of the commission on religious publicity states.

The report pleads for the intelligent co-operation of the churches with the newspapers.

Food Conditions in Vienna Are Serious

By Associated Press Leased Wire Washington, June 2.—Officers and employees of the Vienna Chamber of Commerce have appealed to the United States Chamber of Commerce for food relief, declaring they are starving.

American business interests are raising a \$12,500,000 fund for the purchase of food drafts which will be sent through the American relief administration.

Conditions in Vienna are reported as serious, in the information received by the United States chamber.
